This has allowed us to proudly build and maintain a culture of ethical behavior, transparency, and social responsibility in both our investments and our operations. By performing a wide range of operations, Sirantix makes profits from different diversified sources like trading operations on the cryptocurrency and currency markets, dividends from the implementation of successful startups, and

commissions for exchange operations for large legal entities. As a global investment firm, we foster diverse perspectives and embrace innovation to help our clients navigate the uncertainty of capital markets. We're fostering a culture of diverse perspectives

clients' success. And were doing it responsibly-from how we act to how we trade-because outcomes mean more than financial returns.

We're committed to helping you

achieve better outcomes...the way you define them. We get there by empowering diverse perspectives and breaking through boundaries. We're collaborative and connected-and we never stop working for you.

Serving Our Clients

We work every day to earn our clients' trust, whether they're individual investors or the world's biggest institutions. By tapping a global network of diverse perspectives, we design innovative solutions tailored to meet

investors' unique needs and engineered to deliver the performance they expect. We offer sophisticated wealth-planning tools and expert advice for high-net-worth individuals, families and smaller institutions, helping investors make their money meaningful.

Responsible investing is part of a growing movement-one we can help you embrace. Ultimately you don't have to choose between profits and purpose. You can pursue both. Responsible investing is more than a slogan. It involves real investment choices. But there are many ways to invest through a

NO MATTER WHERE YOU WANT YOUR BUSINESS TO GO

responsible lens and sometimes it's hard to know where to start. Let us help you with the essentials.

Our strategies embodies our ability to cut through complexity with independent clarity, generating exclusive insights that reframe perspectives and strategies across markets and sectors. Embodies our ability to cut through complexity with independent clarity, generating exclusive insights that reframe perspectives and strategies across markets and sectors.

Our financial team also includes specialists who are experts in evaluating new private businesses called start-ups which have most chances to grow into large-scale and highly profitable enterprises. The idea is very simple: every business needs starting capital to go through bureaucratic formalities, rent premises, purchase equipment and other assets, hire employees and so on. As a rule, start-ups don't have sufficient funds to afford everything they need for effective activity. Banks are quite prudent to "newbies",

Sirantix Company intends to stay in business for a long time and do its best to ensure high revenue on investor's deposits. The more money we collect, the higher the return. That's Sirantix Company platform had started attracting small investments starting from only $100. Our experts had examined and analyzed the relevant investment markets and developed a highly efficient trading strategy. Investors can choose from a variety of investment packages to invest their funds for different periods of time and receive the best re-

personal account.

In addition to favorable investment proposal we also offer fair and transparent conditions of the affiliate program. You have the opportunity to start a business of your own and earn additional money by just sharing the word of our Company and demonstrating its potential to others. Our referral rewards program offers earning from deposits made by your referrals.

DEDICATED EXPERTS

We are investment experts with an explicit focus on protection and security. We under-

stand that every customer has different circumstances and objectives and it's these differences that influence our diverse range of products. Each of our clients is assigned a personal gold consultant to offer expert guidance on products, markets and timing. with no obligation to purchase. Not merely a shopping basket experience, our investments are tailored to the investor and designed to minimize tax exposure. •We view every situation as an opportun opportunity to learn (especially when the going gets tough).

•Were more interested in learning than being right.

•We value giving and receiving regular feedback.

•We learn from and mentor those around US.

Efficient execution

•We complete high quality work quickly by working smarter, not harder.

•We value completing tasks, instead of just talking about them.

•We prefer automation over manual work.

•We prioritize, focusing on the 20% that will get us 80% of the impact.

Funds Management

Started in 2020, the Funds Management business supports new and emerging investment platforms through their launch and growth phases. Funds Management builds on the Company's success in Investment Management supports the move towards a leader in alternative in-

ness heritage, global network, and strong financial position, Funds Management provides managers significant investment capital as well and operational and financial support to grow their portfolio. In addition, this platform gives investors access to multiple boutique fund managers through an institutional

platform backed by a premier listed financial services company.

In recent years the investment industry, and in turn investors, have introduced a

new gauge:

Sirantix Company - Environment, Social and Governance - as a supplement to traditional financial gauges.

Sirantix Company changes are happening faster than ever, reshaping how people live and invest. We believe that Sirantix Company factors are going increasingly mainstream and can be used to drive investment outperformance.

Investing for a sustainable future

The era of green bonds has arrived. We are seeing the increasing use of bond markets to raise capital to fund the low-carbon economy, especially from the issuance of 'green bonds.

While many in the fixed income market are grappling with green bonds, others are working out how best to incorporate broader environmental, social and governance Sirantix Company strategies into their portfolios, a task rapidly growing in importance.

Why does it matter?

Sirantix Company changes are happening faster than ever, reshaping how people live and invest. We believe that Sirantix Company factors are going increasingly mainstream and can be used to drive investment outperformance.

Making the first step right is crucial to the long road of investments. Of the five steps, the first is to assess your risk tolerance and decide the most suitable asset allocation for yourself.

Different people have different attitudes towards investment. Some are not willing to take any risks or withstand losses, and therefore would rather forgo potentially higher returns. Some are willing to take some risks but tend to avoid huge volatili-ty. Some are willing to take risks in ex-

markets.

How to gauge one's risk tolerance? Look at your investment horizon. Put it simply, the longer your investment life, the higher the risk you can take because you can afford the time to last a cycle, which helps smooth out short-term volatility.

For instance, a young person just starts working, who is still far from retirement, can take more risk.

Sustainable investing

On the contrary, the shorter the investment period, the lower the risk one can take. Assuming you are going to retire next year, and not receiving any regular income, you just do not have the time to recover all losses if your investments take a nosedive all of a sudden.

Besides, your risk tolerance is dependent on your life goals. Ask yourself if you need to set aside funds for your children's education? Are you going to buy a property in the near future? These factors will have an impact on your cash flow.

After all, we all need to reserve some cash at all times just in case there are emergencies.

Balancing risk and return is the key to long-term investment isn't it perfect to have an investment tool that always tops the performance league, and investors can stay worry-free just by holding it? The truth is that there are ups and downs in all economic cycles and the markets are capricious. Even investment experts find it hard to predict the performances of all asset classes.

Based on historical data, the same asset can perform drastically differently during different investment cycles. The best-performing asset in 2017 can turn out to be the worst laggard in 2018. That suggests no particular asset can be an all-time winner.

Investors should therefore avoid putting all eggs in one basket but allocate assets across different sectors and geographies.

That could help diversify the risk of an investment portfolio, and capture investment opportunities at different times for more stable returns in the

medium- to long-term.

To make diversification works, an investment portfolio should include assets that are complementary, that tend to react differently to the same macro condition. More precisely, some

negative elements in the market might cause an asset to decline sharply, but

pose little threats to another. In the world of investment, such pairs are called lowly-correlated assets. They can effectively balance the risk and return of an investment portfolio.

Portfolio management

In the investing journey, investors should start off by constructing a portfolio that

accommodates their investment objectives and risk profiles. However, setting up the initial asset allocation is merely a starting point. It is equally important to regularly rebalance the portfolio to ensure the asset weightings are consistent. Overlooking the need to rebalance the

achieving their long-term investment goals.

Market changes shift portfolio away from initial objective

In an investment portfolio, the relative weights of different asset classes may change due to market fluctuations, which lead to a shifted asset allocation that deviates from the original target. In this case, rebalancing the portfolio will mean restoring the weightings of portfolio assets to the original designed levels.

Hedge Funds and Private Equity

The Company's investments in externally managed private equity funds and hedge funds, as well as private equity direct and co-investments.

The portfolio seeks to maximize risk-ad-justed returns and diversify exposure by industry and geography, while giving the

Company a global view of the alternative investment landscape.

With our archiving capacities and

constant education of our staff, monitoring ever changing regulations and global finance requirements we are sure we can be a valuable ally in your expansion.

Investment Management

In 2015, the Company established the Investment

Management division

formerly known as Principal Investments and began its evolution into a leader in alternative investing.

Investment

Management leverages the Group's expertise, network, and financial

strength to seek attractive risk-adjusted investment opportunities across global markets and sectors.

Hit your investment targets with the right approach

Once you have identified your investment targets, you can put your cash into different asset classes and construct a portfolio based on your risk tolerance. The idea of asset allocation is

to include equities, bonds and other investment tools in a basket. Since different investment vehicles come with different risk-return profiles, asset alloc tion is never easy.

Generally, the higher the potential return of an asset class, the higher the risks it carries.

Capital Markets

With different packages, our system is modelled to accommodate everyone no matter how much you have to invest.

A Team of Professionals.

With our team of professionals, our investment strategies guarantees you a considerable return on investments to secure your future.

Administrative services

Let our dedicated staff take care of all your administrative services. Paperwork, contracts, legal, we take care of all the boring things.

Sirantix Company offers an unparalleled lineup of traditional, alternative and ESG strategies you want with the performance you need to achieve your unique goals.

We are continuously innovating - thoughtfully evolving our platforms to deliver ever-better service and results for

each and every client. We tailor solutions to meet your needs and deliver security you can rely on to keep assets safe.

Healthy dose of ambition, a willingness to go the extra mile and a strong sense of camaraderie are what we look forward to for our clients.
